SUMMARY

Full-stack Java engineer with 10+ years building enterprise web apps in the EU public sector. Hands-on across the stack (Spring Boot, Hibernate/JPA, Angular), CI/CD (Maven, Bamboo), code quality (Sonar), and Agile/Scrum delivery. Working with clean repository/entity design; experienced exposing and consuming REST APIs.

CORE STRENGTHS

- Java 8–17, Spring Boot, REST API design, security & validation
- Hibernate/JPA, repository patterns, Oracle SQL/PLSQL
- Angular (5+/JS), HTML/CSS/TypeScript, ExtJS (legacy)
- CI/CD with Maven & Bamboo, Bitbucket/Git, code reviews, branching strategies
- Code quality: Sonar, unit/integration testing, test scenarios
- Agile/Scrum delivery, stakeholder comms, production deployments

EXPERIENCE

Full-Stack Developer — European Commission (DG ENER) — Luxembourg — May 2021 – Present

Senior developer on CMF4 (Spring Boot + Angular), replacing CMF3 accounting for nuclear materials. Designed and implemented REST services, domain models (entities), and repository layer; optimized Hibernate/JPA mappings and queries, cutting critical query time by ~25%. Built and maintained CI/CD pipelines with Maven & Bamboo; peer-reviewed code in Bitbucket; enforced quality gates in Sonar. Supported legacy CMF3 stack (ExtJS, Ant, WebLogic) and orchestrated staged migrations and production releases. Worked end-to-end in a monolithic codebase with modular separation; collaborated in Agile/Scrum sprints.

Stack: Java 8–13 · Spring Boot · Hibernate/JPA · REST · Angular/JS · Oracle SQL · WebLogic · Maven · Bamboo · Bitbucket · Sonar · Git · Agile/Scrum

Full-Stack Developer — Eurostat / ARHS Developments — Luxembourg — Nov 2017 – May 2021

Developed EDAMIS 3 & 4, Eurostat's statistical-data submission platforms used by all EU Member States. Implemented REST endpoints, data validation flows, and repository-backed services with Spring Boot + Hibernate/JPA in a monolithic architecture; delivered Angular front-end features. Contributed to CI/CD with Maven/Bamboo (or equivalent), source control in Bitbucket/Git, and quality checks via Sonar; authored testing scenarios and coordinated with

stakeholders. Deployed/maintained ColdFusion components where required; produced bug-fix patches and operational documentation.

Stack: Java · Spring Boot · Hibernate/JPA · REST · Angular 5 · Oracle PL/SQL · ColdFusion · Maven · Bamboo · Bitbucket · Sonar · Git · Jira · Agile/Scrum

IT Specialist — Hellenic Army, Computer Research Office — Orestiada (GR) — Nov 2015 – Aug 2016

Database & network administration; Joomla-based intranet development; user support and system maintenance.

Freelance / Side Projects — 2000 – Present

PC assembly/repair, OS installs, and private IT lessons.

EDUCATION

MSc, Information Systems — Linnaeus University, Sweden (2012) — Focus: Business Administration, Knowledge Management, E-Business

BSc, Computer Science & Technology — University of Peloponnese, Greece (2006–2012) — Thesis: Resource Distribution in New Product Development — Graduated “Very Good”

CERTIFICATIONS & PUBLICATIONS

Cambridge & Michigan English Certificates; French DELF (A1–A4)

The Modelling of Funding Education as a Strategic Choice... — IC-ININFO 2012, Budapest

Simulation Model for Motivating Entrepreneurship Actions — IC-ININFO 2012

LANGUAGES

Greek (native) · English (C2) · French (B2)

INTERESTS

Basketball & beach volleyball (semi-pro), mechanics, fishing, blockchain investing
